HARMONY XL PRO

SCLASER

***Sclerotherapy and Laser combination created and performed by Dr Laura Redman**

BEST FOR: Varicose Veins and Spider veins

NUMBER OF SESSIONS: 4-6 sessions with maintenance thereafter

INTERVAL IN- BETWEEN SESSIONS: 2-4 weeks

CONSULTATION includes an assessment and vein duplex doppler scan (and veinlite assessment) at the Vein Clinic R650

FIRST SESSION: sclerotherapy R3500

Laser: Charged per shot *See above for average prices*

FOLOW UP sclerotherapy cost R3200
Application of anti-inflammatory and circulation cream and massage

GRADUATED POST SCLASER COMPRESSION R900
(shown to reduce the risk of pigmentation and improve lymphatic drainage)

Please note, depending on the initial assessment, sclerotherapy only may be done at the first session to cover more areas. This will be individualised.

* Once the sclerosant is injected the area will be compressed. Graduated medical compression is placed immediately after the procedure. The graduated compressions will be supplied post session.

LEG MAKEOVER

- **Operative procedure: Microphlebectomies of feeder veins, Sclerotherapy +/- Laser combination created and performed by Dr Laura Redman**

BEST FOR: Dermal Varicose, Reticular veins and Telangiectasias

CONSULTATION includes an assessment and vein duplex doppler scan (and veinlite assessment) at the Vein Clinic R650

SESSIONS: 1 Surgical procedure: This is done under sedation to cover large areas of the legs safely. Usually only necessary once.

Sclerotherapy / Laser / Sclaser sessions with maintenance thereafter

INTERVAL IN- BETWEEN SESSIONS: After the procedure – 4 weeks, then other top up refining sessions are 2-4 weeks apart

FOLOW UP sclerotherapy cost R3200

Laser: Charged per shot *See above for average prices*
Applica'on of an'-inflammatory and circula'on cream and massage

GRADUATED POST SCLASER COMPRESSION R900
(shown to reduce the risk of pigmenta'on and improve lymphac drainage)

* Once the sclerosant is injected the area will be compressed. Graduated medical compression is placed immediately afer the procedure. The graduated compressions will be supplied post session.

PLEASE NOTE FOR SCLASER AND LEG MAKEOVER:

The initial assessment at the Vein Clinic will determine what first procedure is best. The response at the next determines the following session. This is individualised.
